JOURNEY TO THE PERFECT BALANCE

Congratulations! You are now the proud owner of a Pearl Model S. This scale is designed for coffee enthusiasts and professionals alike. Use it to monitor the weight, time, and flow rate as you brew.

Acaia pioneered precision, speed and high performance in coffee scales, and all Acaia products come with quality workmanship. The Pearl series is designed with high accuracy, quick response time, and pour-over coffee in mind. Now, with the Pearl S and its built-in Brewguide on the scale display, you can enjoy coffee brewing in even more ways. Use our free app to search and download the brewing guide you need and get ready to make that perfect cup of coffee!
